

Conservation and restoration of mediterranean *Taxus baccata* woods in the Cantabrian Mountains

*The
yew*

Know

The LIFE baccata project works to improve the knowledge of my species to design suitable conservation actions.

I am a millenarian tree with a huge cultural, natural and scientific value, considered a rarity.

Over time I have suffered a series of threats that have endangered my survival, my habitat and the biodiversity I live with.

Preserve

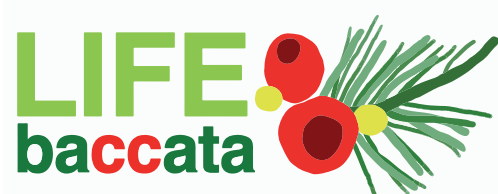

The LIFE baccata project works in the protection, control, genetic conservation and extension of my habitat.

Disseminate

The LIFE baccata project carries out actions to raise awareness of society about my importance and the potential socioeconomic benefits of my survival.

SOCIOS

LIFE15 NAT/ES/000790

ADMINISTRACIONES COLABORADORAS

LIFE baccata is a project co-financed by the European Commission within the framework of the LIFE call and takes place between 2016 and 2020.
